HORSES NOT THE RIGHT KIND

An Observer Says There Are Too Many of the Common Sort Being Ered.

"A good article to convert into cash at the earliest possible moment is a common horse," said a trader who spends his time gathering for the Dexter Park market. "Everywhere one goes he finds plenty of the three-cornered, slab-sided, longhaired variety, while big stock with quality is growing scarcer right

"That the country has been ignoring the improvement campaign is evident and when prices for good mares are considered this is not surprising. The maternity side of the breeding proposition is not to be ignored and when a buyer offers tempting money for a big draft mare the temptation to let her go is irresistible, especially if the owner is in need of money.

"If my observation is worth anything the country has been raising a lot of horses, but the majority of them are not the right kind and present scarcity of stock susceptible to classification will be emphasized as the season works along,"-Breeders'

A CENTURY AGO.

One hundred years ago Paris made its last gallant defense against the allies. The engagement is known to history as the Battle of the Barriers, and was fought for the most part in the outskirts of the city. The little army entrusted with the defense of the city was heroically aided by the National Guard, the students of the military schools and the citizens in general. A desperate resistance was made, but the result of the battle was a foregone conclusion. The French were in command of Marshals Mortier and Marmont, while Prince Schwartzenberg, the Prince of Wurtemberg and Marshal Blucher directed the movements of the allied armies. Only after the enemy had forced themselves almost into the heart of the city did Marshal Marmont agree to capitulate.

REAL ECONOMY

Masury Paint Costs Nothing

T'S the old, old, story—saving at the spigot and leaking at the bung.

Some people thing it is Economy to buy second grade paint for their house. They figure by the gallon instead of by the year. They ask "how much does it cost." instead of "how long will it wear."

On a basis of actual Wear and Service and Protection for your property MASURY paint really costs nothing. It saves more than it costs. It lasts twice or three times as long as paint that costs a few cents less a gallon.

MASURY'S is real paint Economy. Its record of 77 years is worth considering. We strongly recommend MASURY paint to the man who is looking for Service. The printed formula on the label is the best evidence that the makers aren't afraid or ashamed of their product.

Any man who has ever bought MASURY paint can tell you that it wears and wears and wears.
